

Congratulations to Emily Gould on her honor of May Employee of the Month. Emily has been employed at Clay County Hospital since 2006 and is a Phlebotomist in the lab under the supervision of Linda Schnepfer. Emily was nominated by a fellow employee who seen that Emily has went that extra mile to assist others when there was a glitch in a project that was to be completed by other departments. While assisting she was still able to keep up with her own job duties and kept her beautiful smile and sunny personality while helping those who truly needed her expertise. In her spare time she enjoys spending time with her finance and counting down the days until her wedding. Emily brings a smile to everyone's face and truly enjoys her work. Please help Clay County Hospital in Congratulating Emily Gould.

The Employee of the Month Program at Clay County Hospital was designed to recognize those employees who go above and beyond the scope of their job duties. It is someone who is helpful, innovative, and goes the extra mile. They handle challenges proactively and positively. The recipient is honored with their name on the employee of the month plaque that is displayed in the hospital, a gift card and a special parking place for the month. The winner can be nominated by anyone in the community, and employee of the month nomination forms are available throughout the Hospital. If you know an employee that you feel has gone that extra mile please feel free to stop by the hospital to make your nomination.
